Ms. Cook provided information to the TCC via a Power Point presentation, the contents of which are incorporated into the minutes [here](#). The presentation covered the following points:

- Ms. Cook began her presentation by stating the recommended action from the Project Oversight Committee (POC) was for the TCC to Recommend to the CRTPO Board that it reallocate the \$1,383,870 in CMAQ funding programmed to the Walker Branch Greenway to the Barton Creek Greenway.
- She explained that the CRTPO approved \$1,383,870 in CMAQ funding for the Walker Branch Greenway project in July of 2016.
 - Later in 2016, Mecklenburg County was unable to provide local match for the Walker Branch Greenway due to increased cost estimates.
- Ms. Cook stated that the CRTPO approved \$881,280 in CMAQ funding for the Barton Creek Greenway in July of 2010.
- She explained that construction is scheduled to begin on the Barton Creek Greenway project in the first quarter of 2018 and there is currently a \$1,383,870 budget deficit for construction.

 - The project received a score of 66 using CRTPO's CMAQ methodology.

TCC INFORMATION REPORTS

4.1. FY 2019 Unified Planning Work Program Development

Presenter: Robert Cook

Summary:

Mr. Cook provided information to the TCC via a Power Point presentation, the contents of which are incorporated into the minutes [here](#). The presentation covered the following points:

- Mr. Cook began his presentation by stating that he will provide an update on the development of the FY 2019 UPWP since the December TCC meeting and seek consensus that a draft can be submitted to NCDOT for review.
- Mr. Cook stated that he received clarification from NCDOT following the December TCC meeting that STBG-DA funds allocated for planning purposes can carry over into future fiscal years.
- He explained that the unobligated balances have not been provided yet; however, the PL unobligated balance will be less than \$100,000, and the STBG-DA unobligated balance may be more substantial.
- Mr. Cook then provided an estimated overview of CRTPO's funding levels for FY 2019. He indicated that CRTPO does not have the final numbers for FY 2019 from NCDOT and FHWA, but should receive these soon.
- He reviewed the five local planning project submittals received from member jurisdictions, and stated that he is optimistic that the CRTPO may be able to provide some level of financial assistance to these projects.
 - Once the unobligated balances are known, the UPWP subcommittee will develop a recommendation to the TCC regarding local planning project funding.
- Mr. Cook then reviewed the potential allocations of the \$2.1 million by task code for FY 2019.
- He concluded his presentation by stating that the next steps in the UPWP development process were to present a draft to the CRTPO Board during the meeting on January 17 and to submit the draft UPWP to NCDOT for its review.

Mr. Coxe stated that a prioritization process should be developed when there is not enough funding to fulfill all local planning project requests. Mr. Cook responded to explain that the UPWP subcommittee will develop the list of prioritized projects for this fiscal year. He added that the Southwest Bypass Alternative Study should be given priority because adoption of the CRTPO's CTP was contingent on this study.
