Dear Ms. Collins:

Attached for approval is the Charlotte Regional Transportation Planning Organization's Unified Planning Work Program (UPWP) for FY 2018. The UPWP also serves as the Urban Area's Metropolitan Planning Program grant application requesting Federal Transit Administration Section 5303 planning funds. A complete description and budget of planning activities is included in the UPWP.

The Federal Transit Administration (FTA) grant amount requested is \$444,800. This is the FY 2017 amount, and was the amount known to the CRTPO at the time of the UPWP's adoption on March 15, 2017. The UPWP will be amended once the final FY 2018 amount is provided to us. Section 5303 funds will be matched with local funds in the amount of \$55,600. The local match will be provided by the City of Charlotte. The Charlotte Department of Transportation is the designated grant recipient for Section 5303 grant funds.

Please note that the FY 2018 UPWP programs a total of \$595,634 (Federal) of previously unobligated Planning (PL) funds.

Sincerely:

Unified Planning Work Program (UPWP): Overview

Federal laws and regulations require the formation of a Metropolitan Planning Organization (MPO) for each urbanized area with a population of more than 50,000 to coordinate a comprehensive, coordinated and continuing transportation planning program. The Charlotte Regional Transportation Planning Organization (CRTPO) is the designated MPO for the Charlotte urbanized area, and conducts the metropolitan planning process in Iredell, Mecklenburg and Union counties.

The Unified Planning Work Program (UPWP) is a listing of the projects, priorities and works tasks the CRTPO will undertake during the fiscal year using funding provided from Federal, State, and local sources. It reflects the CRTPO's short-range planning needs and provides details on funding sources, agencies responsible for completing the described work, and the expected products of that work.

The UPWP is the instrument for coordinating metropolitan planning activities in the CRTPO's planning area. The primary objective is to develop an integrated planning program, which considers the planning activities of each mode of transportation and coordinates these activities to produce a plan that serves all areas of the region. The UPWP is developed using the Metropolitan Transportation Plan (MTP) as the CRTPO's planning guidance document.

Most of the tasks outlined in the UPWP are required by either State or Federal law and are ongoing. At the Federal level, these include the development of the fiscally-constrained MTP, the Transportation Improvement Program (TIP), and implementation of the Congestion Management Process (CMP). At the State level, NC General Statute 136-66.2 requires that each MPO develop a Comprehensive Transportation Plan (CTP).

Funding for transportation planning is a product of Federal, State and local funding sources with the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) providing 80 percent of the funding for local planning. The remaining 20 percent is the required match for Federal funds and is provided primarily by local jurisdictions.

Funding Sources & Summary

There are two primary sources of funds used to implement the metropolitan planning process through the UPWP.

1. Federal Funds
 - a. FWHA funds
 - i. Section 104(f) Planning funds, or PL funds
 - ii. Surface Transportation Program Block Grant-Direct Attributable, or STPG-DA
 - b. FTA funds
 - i. Section 5303

2. Local Match

The required local match for PL and STPG-DA funds is shared among municipal and county voting members on a per-capita basis as set forth in the CRTPO’s Memorandum of Understanding (MOU). Member jurisdictions that use these funds to support local transportation planning initiatives are responsible for the full 20% match. The local match of Section 5303 funds is shared between the City of Charlotte and the NCDOT.

The following summarizes the funds available for FY 2018.

Funding Source	Federal Funding	Local Match	Total
Planning (PL) funds	887,588	221,897	1,109,485
Surface Transportation Program Block Grant-Direct Attributable (STPG-DA)	800,000	200,000	1,000,000
